

Weekly Development Report 1

This is the 1st Weekly Development Report. This report summarizes the work completed from **Tuesday, 16 January, to Monday, 25 January.**

1. Group

This week we:

1. Updated our website to reflect changes to our team and our labs.
2. Created and Organized a shared Google Drive Folder for team collaboration.
3. Created our GIT repo for version-control
4. Began Updating/Finalizing our Lab

2. Individual

2.1 Casey Carpenter

This week, I:

1. Set up the shared Google Drive Folder(item 2) and shared its contents with my team members and Professor Brunelle. I set up the folders “website” and “weekly development reports” for our team to place documents pertaining to these topics in an organized fashion.
2. Made all the initial website updates(item 1). I logged into the new 411 account and removed our old 410 team member, Tremain Young, from the biography and labs page. I added our new team member, Gustin Prudner, to the bios page and reached out to him for his preferred biography and picture. I already made a “Labs” section in 410, so on this page, I made sure Tremain’s lab was removed and all our labs were set up correctly to update as revisions were made. Some of the pictures were not loading onto the new 411 site due to the old 410 directory path, so I made those path changes to make sure all the pictures were loading properly onto our site.

2.2 Ernest Webb

This week, I:

1. Set up the Github Repository and sent out invites to my team members and Professor Brunelle, so that they could join and contribute to the project.
2. Updated the Glossary in the Group Outline to keep in line with all the corrections and suggestions given to us.

2.3 Gustin Prudner

1. Orientation with the project: reviewed website, materials, assets, designs, and overall solution.
2. Met with the Copper team, seems like a productive team with positive dynamics.
3. Provided suggestions on solution and infrastructure for the prototype resource request.
4. Worked on my individual rough draft for Lab 1.

2.4 Kyle Grissom

This week, I:

1. Made corrections to the glossary and references pages of both our Outline and shared lab on the Revision00 of xxx I made (just a copy of originals).

2.4 Olayinka Adegun

This week, I:

- 1.

2.4 Thorrell Turner

This week, I:

1. Took the lead on re-working the solution and infrastructure for the prototype resource request with assistance from Gustin.
2. Coordinated and lead team meeting to review, and assign deliverables and required task.
3. Took the lead on creating and formatting the week 1 report
4. Served as the voice of the team to reach out to the Professor with clarifying questions, and to ensure contact with our new team member.
