

Weekly Development Report 6

This is the 5th Weekly Development Report. This report summarizes the work completed from **Tuesday, 23 February, to Monday, 1 March.**

1. Group

This week we:

1. Continued and wrapped up sprint 1
2. Completed and turned in the final version of lab 1
3. Began working on sprint 2
4. Met on Thursday and Sunday to discuss progress and setbacks on sprints

2. Individual

2.1 Casey Carpenter

This week, I:

1. Finished and turned in lab 1
2. Finished creating the journal landing page and the xml files
3. Began working on lab 2
4. Continued working on the style guide
5. Updated the website to be able to download recent documents as PDF files

2.2 Ernest Webb

This week, I:

1. Finished and turned in Lab 1.
2. Begin Working on Lab 2.
3. Added Roboelectric and Hamcrest Matchers to the Project.
4. Started Testing the Fake Phone Call activities and other non-main-feature activities (i.e. Welcome Screen, Main Menu, Login, etc.).

2.3 Gustin Prudner

This week, I:

1. Started adding LocaStack integration with our serverless framework foundation. This will allow us to mimic most of the AWS stack in a local development environment.
2. Refined and refactored much of my Lab 1.

3. Completed peer reviews and resubmitted my use case and functional requirement on the discussion board.

2.4 Kyle Grissom

This week, I:

1. Finished and turned in Lab1
2. Began working on Lab2
3. Wrote my functional requirements
4. Reviewed other functional requirements
5. Finished JournalEditor.java and its .xml
6. Still working on the testing.

2.4 Olayinka Adegun

This week, I:

1. Putting finishing touches to Lab 1
- 2.

2.4 Thorrell Turner

This week, I:

1. Finished the service to support real voices outputting during a fake phone call and pushed it to the repository
2. Revised my Lab 1 to build my final version
3. Wrote my functional requirements
4. Reviewed my classmates functional requirements
