Weekly Development Report 3

This is the 3rd Weekly Development Report. This report summarizes the work completed from **Tuesday, 2 February to Monday, 8 February**.

1. Group

This week we:

2. Individual

2.1 Casey Carpenter

This week, I:

1. Made updates to the team website to include a prototype page.
2. Updated my lab 1 by applying the most recent comments
3. Independently researched AWS, Databases, and MYSQL.
4. Took on a new role of creating a style guide for the application and began researching into how to make one.

2.2 Ernest Webb

This week, I:

1. Revised my lab 1 by taking the most recent comments into consideration.
2. Researched into the Fake Phone Call feature and concluded that the Twilio API is not needed for its creation and the Android API is sufficient for our needs.
3. Added and completed activities in Trello for the creation of various UI files.

2.3 Gustin Prudner

This week, I:

1. Setup Gitlab and Trello integration with our chat room to help keep everyone in the loop on activities.
2. Created some UML Sequence diagrams via mermaid, setup in repo for common use.
3. Spiked OpenAPI and GraphQL examples to drive development tool automations.

2.4 Kyle Grissom

This week, I:

1. Worked on Lab 1.
2. Watched the Prof. Kennedy and Prof. Gupta video on Docker and AWS and shared my notes with the team.
3. Researched AWS to prepare for development.

2.4 Olayinka Adegun

This week, I:

2.4 Thorrell Turner

This week, I:

1. Worked on my Lab.
2. Conducted independent backlog refinement
3. Lead the team in further refinement in preparation for sprint 1
4. Converted Stories and Epics to cards on our Trello board
